

Math 6 - Course Information

Materials:

- Notebook (a section in your divided 3-ring binder is fine)
- Student Success Book (students will be provided with ONE copy-contains daily warm-ups)
- Sharpened pencils
- Pencil sharpener
- Paper

***Please be certain to bring all materials daily. You may not leave class to get something out of your locker.**

Beginning of class: Have all necessary materials, be seated, and complete the do now for the day.

Homework: There will be daily math homework. It will be given out on Mondays and will also be available online on my teacher webpage. You may choose to work ahead, but not behind. You will be graded on both on effort and accuracy, so you have to show ALL your work and try EVERY problem to receive credit. There is only one homework grade each 9 week period. Students start off with a 100 and lose 5 points each time they do not have their homework completed or they do not show their work. Late homework will not be accepted.

Make-up Work: If you are absent, you will need to check online for the classwork and/or homework assignments you will need to make-up. Missed assignments due to an absence must be made up within 3 days.

With regard to making up a test/quiz, the following procedure will be implemented:

- ✓ For make-up of tests for which the student had prior knowledge of, the test will be taken in class on the day of return.
- ✓ If student was unaware of the test prior to the absence, then the test will be made up on the 2nd day of return.

Tests and Quizzes: Advance notice will be given before a test and a practice test will be provided for homework on the night before a test. Quizzes will not always be announced.

Extra Credit: Extra credit assignments are not offered. However, bonus questions are on most tests. Students may also earn 5 extra points on graded tests and quizzes by bringing them back to me the next day, signed and dated by a parent.

Weight Scale:

Tests 50%

Homework 20%

Quizzes, CCGPS tasks, and other assignments 30%

Parent Portal:

Infinite campus has a parent portal where you can view your child's grades, attendance, etc. If you had a log in last year, it will continue to work. If you have never been to parent portal, you will need to get an access code. The front office will let you know when this information is available to you. Please see the school website for the link.

Notebooks: This course information sheet should be kept all year in your math notebook of choice or do now book. Students may keep their math in a composition book, spiral notebook, or just on regular paper in their 3 ring binder....it is their choice, but it must be kept up with and in one place.

Cell Phone Usage: Cell phones are not to be used in math class. If they are in the room, they should be on silent and not be out. On certain standards, calculators are allowed, but students should only use the ones I provide them.

During the first week of class, we will explain:

*Classroom procedures

* Collection of assignments

*Keeping a notebook

*How to show work

* Behavior and discipline

*Quizzes and tests

Please read the agenda book for school-wide information and check the school website often. You may email me at Whiten.Caitlin.N@muscogee.k12.ga.us with any questions or concerns. I look forward to a great year!

Please fill out the portion below. This sheet will stay in your child's notebook, so you do not need to cut it off.

I have read the Course Information sheet thoroughly and understand the expectations and policies.
