

WATER CYCLE VOCAB GAME

The Sun

The source of the energy that powers the Water Cycle

Evaporation

Change of liquid water to water vapor

Condensation

Change of water vapor to liquid water

Precipitation

The falling of any form of water from the air to the ground

Surface Runoff

When liquid water runs downhill on Earth's surface

Percolation

The infiltration of water from the surface to the subsurface

Groundwater Flow

Water that moves underground through soil or rock

Transpiration

The evaporation of water from plants
